arena
Eyewear

Based on practice feedback and designed in conjunction with the buying team at HQ, we are delighted to launch a brand new collection called Extra, with the specific brief of bridging the gap between V100 and P100. Extra is a collection of just 11 SKUs manufactured from both plastic and metal, all of which benefit from a flex temple. These styles are of the upmost quality and represent exceptional value for money at just £4.90.

Extra will be launched in January 2024, and a complete collection will be delivered to all existing P100 stockists by the end of March on an opt out basis.

You can order and view the collection online at www.arena-eyewear.co.uk/hg, or please call 01952 820408 if you have any questions.
