

Refreshed for 2026, we are delighted to launch 8 brand new styles to the Project 100 Sunglasses Collection which will sit alongside the two bestsellers from 2025 to make up the 10 piece pack. The 2026 updates include beautiful greens, smooth combinations, a sprinkle of glamour and a modern hexagonal design.

All styles are priced at just £13.95. Every frame comes with polarised lenses with a rear anti-reflective coating meaning they can be sold as plano from display, as well as every model being suitable for glazing, should your patient want a prescription adding.

The collection comes as a complete pack of 10 pieces, and you can then order frame only replenishment on a SKU by SKU basis from Arena. All models will be stocked at Aspire, enabling you to order these frames with Aspire lenses as a complete glazed package, saving time and money on replenishment orders.
